The Copystar CS 305/255... Built by Copystar, Inspired by You.

Simple has never been so smart

Fast Output Speeds of 30/25 PPM

These compact devices offer productive print speeds of 30 and 25 pages per minute, depending on device model.

Print, Copy, Color Scan and Optional Fax

Deliver crisp, consistent black & white documents with every task, every time. Plus brilliant color scans and the option of adding fax capabilities.

Simple to Operate

Featuring an easy-to-read, bright LCD Screen that puts robust document handling and powerful features at your fingertips.

Small Footprint

The stylishly designed, smooth-edged CS 305/255 MFPs harmonize with many contemporary office environments, with a small, space-saving footprint that offers greater flexibility and freedom in terms of device placement and installation.

At Your Desktop

Our powerful KX Driver and advanced desktop tools and utilities unlock the full potential for printing your critical documents and managing your device. Whether your office uses Mac, Linux, or UNIX, Copystar offers print drivers and PPDs for virtually any network.

Business critical information is secure and never compromised

SMART*tech* adds a level of safety and security

Ideal for highly sensitive environments, these devices are powered by a standard 512MB of Random Access Memory (RAM), so there is no hard disk drive that can be breached by unauthorized personnel. Once the device is turned off, all resident data is eliminated. Utilizing Copystar's software tools administrators can easily manage and track these devices across their network.

Secure Print Feature

Whether at the device or at a desktop, users can retrieve critical and confidential documents only after entering a secure PIN.

Integration with Secure Identity Solutions

SMART*tech* MFPs can be configured with our Card Authentication Solution to limit physical access to the device using HID/Proximity Card technology.

Integration with Active Directory

Administrators and compliance officers can integrate the CS 305/255 with an organization's active directory, further assuring that only personnel with proper access credentials can utilize the MFPs.

The budget-conscious CS 305/255 MFPs

Long Life Consumables

Our award-winning technology incorporates long life imaging components that can dramatically lower your total cost, while providing high productivity and exceptional image quality.

Easy Operation Control Panel

Loaded with user-friendly capabilities that put robust document handling and powerful features at your fingertips, plus On-board Help Guidance, 'Favorites,' and our unique Document Box.

Feature Rich MFPs

Ask about the wide array of features, both standard and optional. Choose from among a 50-sheet document processor, high capacity paper handling up to 1,600 sheets and a 500 sheet stapling finisher.

Budget-Friendly

The highly-affordable CS 305/255 benefits from our long-life components and ultra-reliability, bringing a whole new meaning to low total cost of ownership.

Secure RAM-Based Memory

Designed with security as a priority, there is no hard drive on these MFPs, reducing the security risk. Once the device is turned off, all resident data is eliminated. The standard 512MB of RAM is upgradeable to 1536MB.

Keeping the Future Green

These Energy Star® compliant devices feature a quiet operation design, low CO_2 emission and power consumption of less than 1 watt in sleep mode.
